PNY TECHNOLOGIES®

7600 GT
256MB DDR3
PCI EXPRESS®
DVI-I + DVI-I + HDTV-out
128-bit
Dual RAMDACs 400MHz
Microsoft® DirectX® 9.0 support

-Superscalar GPU architecture
Delivers over 2x the shading power of previous products for screaming gaming performance.
- NVIDIA® CineFX™ 4.0 engine
Powers the next generation of cinematic realism.
- Industry's first on-chip video processor
Delivers unmatched video performance and features.
- NVIDIA® UltraShadow™ II technology
Enhances the performance of bleeding-edge games, Second-generation technology delvers more than 4x the shadow processing power over the previous generation.
- 128-bit studio-precision computation
128-bit studio-precision computation through the entire pipeline prevents image defects due to low precision and ensures the best image quality for even the most demanding application.
- NVIDIA® Intellisample™ 4.0 technology
The industry's fastest antiallasing delivers ultra-realistic visuals.
- Full MPEG support
Delivers a stunning video experience through encoding and decoding of analog and digital content
- Advanced adapting de-interlacing
Smoothes video and DVD playback on progressive displays.
- Video scaling and filtering
High-quality scaling and filtering technology improves video playback quality at any window size, including full-screen HDTV resolutions.
- Integrated TV encoder
Provides world-class TV-out functionality up to 1024x768 resolution.

Minimum System Requirements :

11. Minimum recommended 300W system power supply
2. Intel Pentium® 4 Prescott class progressor or higher (LGA775 processor package) or AMD® Sempron/Athlon™ Microsoft® 2000, XP
3. PCI Express® compliant Motherboard with a x16 lane bus compliant slot
4. 128 MB System RAM
5. CD-ROM or DVD-ROM drive
6. VGA or DVI-I compatible monitor
7. Two hard disk drive power dongles off of separate power supply cable bundles (smaller floppy disk drive connector is not sufficient)

GeForce 7600 GT

nVIDIA GeForce 7 Series
